## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or nonobviousness.

Claims 35, 38, 39, 40, 48-50, 52-61, 63-66 are rejected under 35 U.S.C. 103(a) as being unpatentable over Ragland in view of Turner et al. The patent to Ragland teaches structure substantially as claimed including a tray insert (30) removably disposable within a cavity of a support (20), the support including a rim and a lower surface defining the cavity, said tray insert comprising a body portion including a first surface having a pocket formed therein and a second surface adapted to be disposed adjacent the lower surface of the support, a coupling member (fig. 2) disposed on the body portion and including a protrusion having an inclined surface, the coupling member adapted to releasably and mechanically engage a recess formed in the support within the cavity of the support, the body portion including an extending portion to engage a

portion of the support rim the only difference being that the insert does not include a plurality of pockets and the extending portion does not include a U-shaped configuration. However, the patent to Turner et al teaches the use of providing a plurality of pockets and a U-shaped extending portion engaging a complimentary portion of the support. It would have been obvious at the time of the invention to modify the structure of Ragland to include a plurality of pockets and U-shaped configuration, as taught by Turner et al, since such structures are conventional alternative structures used in the same intended purpose, thereby providing structure as claimed.

***Allowable Subject Matter***

Claims 41-47, 51 are allowable over the prior art of record.

Claim 62 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
